VANITY FAIR

Friends gathered at The St. Regis Singapore to attend a special event hosted by Catherine Tan of Gromark Consumers Enterprise. The night saw an introduction to the beauty industry's very latest — the Photogen system — which is a radio-phonic multi-therapy system. Over an intimate dinner, Dr Clara Seres delivered a detailed presentation of the treatment and gave a live demonstration. Doctors were attentive and many were seen approaching the guest speaker to ask questions. Friends of the hostess also attended the event to show their support. Dinner was a generous spread of pan-seared *foie gras*, lobster *consommé*, oven-roasted squab, slow-cooked halibut, Angus beef, followed by a delicious serving of hazelnut crunchy biscuit topped with chocolate mousse for dessert.
